Altamer is BACK!

Altamer is perhaps Anguilla's most famous ultra-luxury villa. For decades, this high-end property has set the pace for exclusivity and high-end Anguilla villa living. After under going extensive renovations this year, Anguilla's jewel is BACK!

One of the largest villa properties in Anguilla, Altamer is composed of three separate villas:

- Antilles Pearl
- African Sapphire
- Blue Diamond

Let's take a look inside Antilles Pearl...

Set right on Shoal Bay West, Antilles Pearl's location boasts the best of both worlds: total seclusion with sandy beachfront. The villa is set at the edge of Shoal Bay West. A most private location, here, turquoise seas are just steps away while St. Martin waves to you in the distance.

For an up close view of Caribbean blue, take a stroll on the villa's 50' skywalk (right of photo above). A stroke of architectural genius, on this skywalk, you feel like you are floating over the sea!

Prefer the pool? Altamer's sparkles in a million shades of blue!

Yes, outdoor living is LARGE at Antilles Pearl. Inside, Antilles Pearl impresses all over again. The villa itself offers 12,000 square feet of living space. Five bedrooms (each with sumptuous ensuite), living area, dining area, games room, chef's kitchen and even an elevator and rooftop terrace all lay out over three stories.

Bright, lofty and with luxurious furnishings and fixtures, the feel is distinctly upscale Caribbean and modern. The living room boasts 21' high ceilings with grand windows and doors that open to the spacious pool deck.

Upstairs, five plush suites with ensuite accommodate up to 10 guests. The master bedroom is simply jaw-dropping. It spans two stories, with an upstairs loft that makes for a private office. The effect of the two story high ceilings and floor-to-ceiling windows is mesmerizing.
